

Hello fellow shareholders. As many of you know, I'm **Linda Wilson** and I'm seeking **re-election** to our Board of Directors. For the past two years, I have been the **Vice President** on the Board. I'm a **full-time year round resident** and have been a shareholder for 17 years.

As Vice President, I work daily throughout the year, focusing on park projects, administration, challenges and new initiatives, in addition to facilitating share transfers. As a **notary public**, I sign all affidavits required for purchase closings (at no charge to the park).

When necessary, I staff the office when Beth is on vacation, ensuring administrative continuity, checks to pay park expenses get signed, and complaints and requests are addressed. I also attend monthly **COWBRA** meetings, to stay abreast of issues that may **impact "our"** community and ensure our shareholders are represented and kept informed. From May till October, I also assume the role of Acting-President.

During my tenour as Vice President, I **initiated** the application process with **Florida Rural Water** and continue efforts to bring **Boynton water** to our Park. I work diligently with fellow board and water committee members to make this **becomes a reality!**

I was able to **secure the mobile and share for Lot 183** before it was to be condemned by Palm Beach County Health Dept. The mobile was removed and the lot prepared for a new home.

I travelled to Palm Beach County Zoning Dept on numerous occasions after the Park was cited by Code Enforcement over the Brazilian Peppers, and found that we do indeed own part of Steiner Road.

I'm in frequent contact with Palm Beach County on zoning, roads and bridges, property appraiser, and planning departments working towards getting the **cleared property at the far corner, plated and ready to sell.**

I believe that my results and track record, demonstrate my abilities to get the job done! My name is Linda Wilson and I trust I have earned your support and vote. Thank You for your time.
